- Heavy-duty pull-type scraper can level, grade or backfill
- Excels at maintaining roadways, installing water bars or terraces
- Heavy-duty powder coat finish and wear plates provide the ultimate in all-season durability

Pull-Type Box Scraper Models 5508, 5510 & 5512 — land-leveling powerhouses built for agriculture, forestry, and commercial development. Available in 8', 10', and 12' widths, these heavy-duty blades handle leveling, finish grading, and backfilling with ease.

From feedlots to building sites, road maintenance to terrace installation—these scrapers deliver pro-grade results every time. Perfect for farmers construction crews, counties and municipalities that demand performance.

Built to outlast the rest with adjustable side wear plates and a tough powder coat finish—protecting your frame, extending life, and making replacements quick and simple.

Level it. Grade it. Own it.
